May 8, 2024

I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending items that I have requested in the Fiscal Year 2025 Military Construction, Veterans Affairs, and Related Agencies Appropriations bill consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate. None of the entities for which I have requested congressionally directed spending are for-profit entities.

Sincerely,

A handwritten signature in black ink, appearing to read 'John Fetterman', written over a horizontal line.

John Fetterman  
United States Senator

**Fetterman, John(D-PA) Military Construction and VA  
Congressionally Directed Spending Requests**

<b>Recipient Name</b>	<b>Project Purpose</b>	<b>Project Location</b>	<b>Amount Requested (\$000)</b>
Letterkenny Army Depot	This project will construct a rocket and missile maintenance facility for the new Precision Strike Missile system and upgrade the existing Voelz Access Control Point at the Letterkenny Munitions Center. This project meets strategic DoD maintenance needs for long-range precision fires.	Chambersburg, Franklin County PA	\$78,000
Pennsylvania Air National Guard	This project would construct a 14-lane, small arms range to support training of Air Guard members, who have not had a range on-base for over 5 years. The 171st Air Refueling Wing incurs transportation costs and has decreased readiness due to competing for range time at other bases.	Coraopolis, Allegheny County PA	\$8,000
Pennsylvania Army National Guard	Current facilities at the 1927-built Williamsport FMS and 1950-built Lock Haven FMS are functionally obsolete, causing reduced unit effectiveness and retention and recruiting challenges. This new maintenance shop would replace both facilities, increase unit readiness, and improve mission outcomes.	Danville, Montour County PA	\$34,000
Pennsylvania Army National Guard	This project would construct a new Ready Building for the 3rd Civil Support Team, which currently operates from 2 buildings located 2 miles apart that, combined, provide less than 1/3 of the unit's mission-required space. The CST needs indoor space to store its equipment for its counter-WMD mission.	Fort Indiantown Gap, Annville, Lebanon County PA	\$2,184
Pennsylvania Air National Guard	This project will construct a new shop space to support the 3 Air Guard unit's tactical communications, operations, and electronic systems systems. Current 80-year-old facilities are severe fire hazards and too small for mission requirements, severely affecting mission and personnel readiness.	Fort Indiantown Gap, Annville, Lebanon County PA	\$1,140
Army Reserve	This project is to construct an Area Maintenance Support Activity and Vehicle Maintenance Shop (VMS) to replace 3 separate over-utilized facilities degrading mission performance. This specific request will support the purchase of the land for the new buildings to help the Army Reserve avoid delays.	New Castle, Lawrence County PA	\$2,500
Pennsylvania Air National Guard	The PA Air National Guard's 171st Air Refueling Wing entry control facilities at Pittsburgh International Airport (PIT) are a national security vulnerability, failing to comply with Anti-Terrorism/Force Protection (AT/FP) standards. This project would construct a new and AT/FP-compliant main gate.	Pittsburgh, Allegheny County PA	\$4,600
